

TURFWORKS GETS THE “FULL MONTY”

Ryder Cup player Colin Montgomery paid tribute to the superb condition of Miklagard Golf Course when he recently took part in the Canon Pro Series together with another British favourite Laura Davis.

Miklagard Golf Course situated close by Oslo, Norway, has been host to the tournament on several occasions and is regarded as one of the finest courses in Scandinavia. Both Colin and Laura admitted their astonishment at the quality of the greens remarking that they were “extremely fast and true” and “as good if not better than any they had played on in the rest of Europe this year”.

Head Greenkeeper Ian Ross (pictured with Colin, and TurfWorks Vibro Rollers on the 18th green) was delighted with the response from both players. Ian said: “Miklagard has a reputation for excellent putting surfaces and it’s something the club are keen to retain. I was asked to produce green speeds in excess of 12 feet for the tournament, which is no easy task, this far north at this late time of year. Beginning 4 weeks prior to the tournament we utilised the TurfWorks system focussing on the Ultra Groomas and Vibro Rollers coupled with very light top-dressings to achieve our aim and it worked perfectly! I couldn’t be any happier with the equipment; it’s been a great investment”.

What is even more remarkable is that the club suffered severe winter kill coming out of last years winter necessitating in 4000m² of re-turfing of the greens. Tore Waago, General Manager was keen to pay tribute to his staff thanking them for all their hard work and also acknowledged the pivotal role TurfWorks has played this year in maintaining Miklagards much heralded greens.

Turfworks is now in use throughout the World, to see the fine turf greens maintenance system in action, please contact ++44 (0) 12 60 22 44 67.
