TurfWorks Qualified

The four Open qualifying courses of the Cheshire / South Manchester region have all purchased the TurfWorks Vibro Roller system. Prestbury Golf Club, Wilmslow Golf Club, The Stockport Golf Club and Mere Golf and Country Club have all seen the benefit of the TurfWorks system for their fine turf areas and greens.

The TurfWorks Vibro Roller system introduced three years ago has already been used at many major competitions in the World to date, including the Open at Hoylake in 2006.

Benefits to the greens is the holy grail of "faster greens" so sought after at the majority of golf clubs Worldwide, the immediate impression is made on all golf greens is smoother faster surfaces. The Vibro Roller units are also been used to assist greenkeepers working on the sustainable theory of greenkeeping methods.

The TurfWorks Vibro Rollers can have a Vibro Brush fitted to help when topdressing has been applied or to stand lateral grass prior to mowing, it is the only Vibro system with this brushing facility.

Other units available are groomer units, scarifying reels, sarel rollers, slitters and brushes; these are all being used to maintain the high standard greens.

Steve Dun, Course Manager at Mere Golf & Country Club commenting on the TurfWorks system said, "The purchase of the TurfWorks cassette system is helping in improving the course here at Mere, by creating the ideal putting surface that today's inspiring golfers desire.
